

## **Why not Reach out and Help the Boutique?**

If you want to help out you can either volunteer at the convention or make items for the convention.

Recovery comes by getting involved in your recovery and you can do that by helping with the convention.

Get started on your recovery through service even if it is small as making something.

When making items for the boutique it should incorporate the tools of the program. Anything given cannot represent a company name, religious affiliation, political, or holiday.
